The synergistic relationship

COOPERATIVE ASSOCIATION
"the attitude of God's grace"

- Explicitly proposed.
- Publicly agreed.
- Scripturally designed.
- Spiritually developed.
- Rationally structured.
- Actitudinally committed.

The synergistic relationship

Beneficial effects by the application of the synergistic interaction.

- They provide food.
- Remove inhibitory elements.
- They stimulate each other.
- Increase beneficial aspects of its constitution.
- They balance interests in the work of the Lord.
- They create a favorable environment for the growth of the churches.

The synergistic relationship

Techniques that help the management of the institutes in their relationship with the churches.

- Greater fragmentation of Christianity
- Growing trends of fundamentalisms
- Rapid growth of churches in the southern hemisphere
- Lack of training of church leaders

An event scenario theory helps to confront the uncertainty of permanent changes. Scenario planning has become today a methodological approach to predict and / or build a future. Through the identification of key trends, scenarios can be built with the purpose of improving the decision-making process and reducing the risk to organizations.
